

TABLE 1 PETITIONERS' SHARE OF DOMESTIC PRODUCTION	
	2018 (Board Feet)
Estimate of Total U.S. Production	[2,692,381,999]
Petitioners' and Supporters' Production	[1,560,322,491]
Petitioners' and Supporters' Share of Total Production of the Domestic Like Product	58%
Production by Portion of the Industry Minus Those Taking No Position	[234,225,199]
Petitioners' and Supporters' Share of Production by the Portion of the Industry Minus Those Taking No Position on the Petitions	67%

Thus, Petitioners have sufficient industry support to file these petitions on behalf of the domestic industry.

D. Previous Requests for Import Relief for the Merchandise (19 C.F.R. § 351.202(b)(4))

Petitioners have not previously filed for antidumping or countervailing duty relief on imports of WMMP and are not aware of any outstanding antidumping or countervailing duty orders on this merchandise. Petitioners have not filed for relief from imports of the subject merchandise under sections 337 of the Act, section 301 of the Trade Act of 1974, or section 232 of the Trade Expansion Act of 1962.

E. Scope of the Investigation and a Detailed Description of the Subject Merchandise (19 C.F.R. § 351.202(b)(5))

1. Scope of Investigation

The physical characteristics of the covered products, which define the scope, are as follows:

The merchandise subject to this investigation consists of wood mouldings and millwork products that are made of wood (regardless of wood species), laminated veneer lumber (LVL), or of wood and composite materials (where the composite materials make up less than 50 percent of the total merchandise), and which are woodwork or building materials that are produced in a mill or otherwise undergo remanufacturing.

The covered products include, but are not limited to, the following: interior and exterior door frames or jambs (including split, flat, stop applied, single- or double-rabbeted), frame or jamb kits, packaged door frame trim or casing sets, mullions,

mull posts, mouldings (crowns, beds, coves, quarter rounds, half rounds, base shoes, astragals, shelf edge/screen moulds, glass bead mouldings, base caps, brickmould, panel mouldings, drip caps, corner guards, shingle/panel mouldings, battens, closet rod, hand rails, rounds, squares, screen/“surfaced on 4 sides” (S4S) and/or “surface 1 side, 2 edges” (S1S2E) stock (also called boards) that are finger jointed and/or coated with any surface coating (including primed), lattice, dowels, picture moulding, wainscot/ply cap, back bands, chair rails), stops, sashes, base mouldings, casing, trim, panel strips, shelf cleats, chamfer strips, inside corners, window stools (flat/rabbeted), sills, door stiles, thresholds/saddles, decorative wood mouldings (embossed, dentil, carved rope moulding), rosettes, plinth blocks, interior siding, including nickel gap or shiplap, that is LVL or finger jointed and/or coated with any surface coating (including primed), and finger-jointed or edge-glued moulding or millwork blanks (whether or not resawn).

The covered products may be solid wood, laminated, finger-jointed, edge-glued, or otherwise joined in the production or remanufacturing process and are covered by the scope whether imported raw, coated (*e.g.*, gesso, polymer, or plastic), primed, painted, stained, wrapped (paper or vinyl overlay), any combination of the aforementioned surface coatings, treated, or which incorporate rot-resistant elements (whether wood or composite). The covered products are covered by the scope whether or not any surface coating(s) or covers obscures the grain, textures, or markings of the wood, whether or not they are ready for use or require final machining (*e.g.* endwork/dado, hinge/strike machining, weatherstrip or application thereof, mitre) or packaging.

All wood mouldings and millwork products are included within the scope even if they are trimmed; cut-to-size; notched; punched; drilled; or have undergone other forms of minor processing.

Subject merchandise also includes wood mouldings and millwork products that have been further processed in a third country, including but not limited to trimming, cutting, notching, punching, drilling, coating, or any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the in-scope product.

Excluded from the scope of this investigation are exterior fencing, exterior decking and exterior siding products, finished and unfinished doors, flooring, and parts of stair steps.

Excluded from the scope of this investigation are all products covered by the scope of the antidumping and countervailing duty orders on *Hardwood Plywood from the*

People's Republic of China. See Certain Hardwood Plywood Products from the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value, and Antidumping Duty Order, 83 FR 504 (January 4, 2018); Certain Hardwood Plywood Products from the People's Republic of China: Countervailing Duty Order, 83 FR 513 (January 4, 2018).

Excluded from the scope of this investigation are all products covered by the scope of the antidumping and countervailing duty orders on Multilayered Wood Flooring from the People's Republic of China. *Multilayered Wood Flooring From the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order, 76 FR 76690 (December 8, 2011); Multilayered Wood Flooring from the People's Republic of China: Countervailing Duty Order, 76 FR 76693 (December 8, 2011).*

Imports of wood mouldings and millwork products are primarily entered under the following Harmonized Tariff Schedule of the United States (HTSUS) numbers: 4409.10.4010, 4409.10.4090, 4409.10.4500, 4409.10.5000, 4409.22.4000, 4409.22.5000, 4409.29.4000, 4409.29.4100, 4409.29.5000, and 4409.29.5100. Imports of wood mouldings and millwork products may also enter under HTSUS numbers: 4409.10.6000, 4409.10.6500, 4409.22.6000, 4409.22.6500, 4409.29.6100, 4409.29.6600, 4418.99.9095 and 4421.99.9780. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these investigations is dispositive.

2. Technical Characteristics and Uses

Wood moulding and millwork products are manufactured from softwood, hardwood, laminated veneer lumber, or some combination of wood and composite materials, and are woodwork or building materials that are produced in a mill or otherwise undergo remanufacturing. Wood mouldings and millwork products have a variety of exterior and interior uses, primarily in residential and non-residential construction. These products have both functional and decorative uses.

These uses include as crown mouldings, which are used where wall and ceiling meet to cover large angles, and cove mouldings, which have a concave profile and are used at corners, including as a ceiling cornice. Wood mouldings and millwork products are also used as interior and exterior door frames or jambs, and as astragals, which are attached to one of a pair of doors to
